Reasons for Allowance

1. Examiner has reviewed and considered Applicant's comments as indicated on page 1 – 2, of Applicants response dated (05/21/2007), and also further in view of the Interview Summary of 05/03/07 and after a further review and consideration and an updated search of Applicant's claims based on the current amendments of claims, Examiner is hereby placing claims 1 – 28 in condition for allowance.

The following is an Examiner's statement of reasons for allowance.

The prior art of record does not teach or fairly suggest at least:

A system for object-to-object mapping between an operating environment and native processor language comprising:

“...testing means adapted for testing the object map to determine whether a particular pointer is associated with a key data component; mapping means for mapping between a selected application side object description and a selected native side object description in accordance with an output of the testing means; means adapted for generating updated key data in accordance with an output of the mapping means...”, in such a manner as recited in claims 1, 8, 15 and 22, and as best illustrated by FIG.4.

Therefore, claims 1 – 28 are in condition for allowance.

Art Unit: 2192
